PROFILE

Results-driven Web Developer with 5 years of experience in designing, developing, and optimizing web applications and business support tools. Strong expertise in building e-commerce ecosystems, developing Chrome Extensions, and implementing Serverless architecture (Amazon Lambda). Highly focused on applying technology to solve practical business challenges, particularly in the Print on Demand (POD) industry. A quick learner who excels in both independent work and collaborative team environments.

WORK EXPERIENCE

ABN Innovation 2021 - PRESENT
Web Developer / Fullstack Developer

- Designed, developed, and maintained robust e-commerce websites, ensuring optimal performance and seamless user experience (UI/UX).
- Built and deployed specialized web-based tools and software to directly support business processes and streamline operations for the company's Print on Demand (POD) model.
- Developed multiple Chrome Extensions to automate daily workflows, significantly increasing productivity for the internal team.
- Flexibly applied modern technologies including Laravel, VueJS, ReactJS, and Amazon Lambda to deploy new features capable of handling high traffic and large datasets.

EDUCATION

FPT Polytechnic 2018 - 2021
Associate Degree in Web Design (Graduated with Distinction)

PROJECTS

ChatGPT Extension & 2FA Authenticator Guard

- Developed 2 highly rated Chrome Extensions with a combined user base of **26,000+ weekly active users**. Optimized UI/UX, API calls, and strictly ensured data security.

Udemy & Coursera Subtitle Reader

- Built a suite of Chrome tools that directly integrate with video players, providing real-time translation, Text-to-Speech capabilities, and dual-subtitle display for learners.

Mivon Gifts

- Independently developed and managed a complete e-commerce system dedicated to selling personalized trading cards.
